(Designer note: We have reduced the number of Black and Purple Energy Cells as they are much more powerful than normal ones and if they were 4x they would have unbalanced your games. Nonetheless, by decreasing the number to 3, we gave the sense to these Cells rarity respect to the standard ones.

Moreover, about the "Social" Trap card, we have decided to make this card more ... social! So even though we are no longer a physical card, we intend to involve the community and offer a different gaming experience every month. The same applies to the eighth World Event Card and the BGG Event Card. Keep an eye on the next updates for more information!)

Tarot cards

- 6 Mission cards
